

Sheringham Shoal Offshore Wind Farm Extension Project and Dudgeon Offshore Wind Farm Extension Project

Equinor New Energy Limited (“ENEL”) is progressing with proposals to extend the existing Sheringham Shoal and Dudgeon Offshore Wind Farms, located off the north Norfolk coast on behalf of the partnership companies, Scira Extension Limited and Dudgeon Extension Limited.

ENEL wish to ensure that they have correctly identified all the interests associated with land within the vicinity of the projects so that, if necessary, they may be included in any future consultation. ENEL will be maintaining site notices for parcels of land where they have so far been unable to identify ownership. As the current COVID-19 guidance is to stay at home, ENEL recognise that the site notices may not be seen by as many people. These parcels of land are therefore available to view online at the following website:

dalcourmaclaren.com/ukextensions

If you believe you hold an interest in any of the parcels of land identified, please follow the instructions on the website. Alternatively, please contact ENEL’s land agents, Dalcour Maclaren at **equinor.ukextensions@dalcourmaclaren.com**

You will also find information relating to the project and consultation at the following website:
