Table A2	Table A26.4.1: Link Sensitivity Link Description Sensitivity Rationale			
1	A1078 Low Road / A148 Grimston Road	Low	Rationale The road is a main (A) road with frontage development that passes through South Wotton. Within King's Lynn, a segregated National Cycle Lane (NCR1) runs parallel to the road. A garden store outlet is also located adjacent to this road.	
2	A148 from A149 to A1065	Medium	The road is a main (A) road with frontage development that passes through Hilington and East Rudham. National Cycle Lane (NCR1) cuts across the road in Sculthorpe and a garden store outlet is located adjacent to this road.	
3	A148 from A1065 to A1067	Low	The road is a main (A) road with frontage development. A garden store outlet is located adjacent to this road.	
4	A148 from A1067 to B1149	Low	A main (A) road that passes through Little Snoring. A narrow footway lines this road with a local pub and village shop located adjacent to the route.	
5	A148 from B1149 to Hamstead Road	Low	The road is a main (A) road with no sensitive receptors.	
6	A148 from Hemsetad Road to Bridge Road	Low	The road is a main (A) road with no sensitive receptors.	
7	Bridge Road	High	A road with sporadic frontage developments and no sensitive receptors. Rural Cycle Route 30 runs along the link.	
8	The Street	High	The road that passes through Kelling. Evidence of direct frontage developments with no footways. Rural Cycle Route 30 runs along part of the link.	
9	A149 - The Street	High	A main (A) road that passes through Weybourne. Evidence of direct frontage developments with narrow footways.	
10	Holgate Hill / Holt Road	Medium	The road that passes through Weybourne. Evidence of direct frontage developments with narrow footways.	
11	A149 from Weybourne to Weybourne Road	Medium	A main (A) road that passes through Weybourne. Evidence of direct frontage developments with narrow footways.	
12	Station Road / Sandy Hill Lane / Gypsies' La	Medium	The road that passes through Weybourne. Evidence of direct frontage developments with narrow footways.	
13	A148 from Gypsie's Lane to B1436	Medium	A main (A) road that passes through Bodham. Evidence of direct frontage developments with narrow footways.	
14	B1436 - Felbrigg	Medium	The road is a main (B) road with both sporadic and direct frontage development. Rural Cycle Routes 30 and 33 cut across the link in Felbrigg. PROW are evident.	
15	A140 - Roughton	Low	The road is a main (A) road with sporadic frontage development.	
16	A149 - North Walsham	Medium	A main (A) road that passes through Thorpe Market. Evidence of direct frontage development and a local pub with a footway lining the road.	
17	A149 from B1145 to B1150	Low	A modern main (A) road with no frontage development designed to carry high quantities of traffic.	
18	A149 from B1150 to Kidas Way	Low	A modern main (A) road with no frontage development designed to carry high quantities of traffic.	
19	A149 from Kidas Way to Honning Road	Low	A modern main (A) road with no frontage development designed to carry high quantities of traffic.	
20	A149 from B1159 to Station Road	Low	A modern main (A) road with no frontage development designed to carry high quantities of traffic.	
21	A149 from Station Road to A1064	Medium	A main (A) road that passes through Ormesby St Michael and Batswick. Evidence of direct frontage development including a church and a village hall. A footway lines the road.	
22	A149 from A1064 to Yarmouth Road	Low	A modern main (A) road with no frontage development designed to carry high quantities of traffic.	
23	A149 from Yarmouth Road to B1141	High	A main (A) road that passes through Great Yarmouth. Evidence of direct frontage development as well as retail outlets with cycle and pedestrian links lining the route. Rural Cycle Route 30 runs along the link.	
24	A149 from B1141 to A47	Medium	A main (A) road that enters Great Yarmouth. Surrounding development including a train station.	
25	A12 from A47 to Williams Adams Way	Low	A modern main (A) road with no frontage development designed to carry high quantities of traffic. This road includes a river crossing with lifted bridge.	
26	A12 from Williams Adams Way to B1385	Medium	A main (A) road that passes through Gorleston-on-Sea. There is an increase in built up area, with signs of increased road user density as well as cycle and pedestrian routes. Also, a segregated National Cycle Lane (NCR1) runs parallel to the road south of Gorleston-on-Sea.	
27	A12 from B1385 to A1117	Low	A modern main (A) road with no sensitive receptors designed to carry high quantities of traffic.	
28	A12 from A1117 to Mill Road	Medium	A main (A) road that passes through Lowestoft. Evidence of direct frontage development, local shops and restaurants/cafes. Pedestrian and cycle links line the road.	
29	A12 from Mill Road to B1384 / A1145 from B	Medium	A main (A) road that passes through Lowestoft. Evidence of direct frontage development, local shops and restaurants/cafes. Pedestrian and cycle links line the road.	
30	A146 from A47 to A1145	Medium	A modern main (A) road with no frontage development designed to carry high quantities of traffic. A National Cycle Lane (NCR1) and Rural Cycle Route 30 cross the road at Loddon and Gillingham respectively.	
31	A47 from A146 to A1042	Low	A modern main (A) road with no frontage development designed to carry high quantities of traffic. A National Cycle Network Route 1 link crosses this road at Procession Lane.	
32	A47 from A1042 to Cucumber Lane	Low	A modern main (A) road with no frontage development designed to carry high quantities of traffic. A National Cycle Network Route 1 link crosses this road at Procession Lane.	
33	A47 from Cucumber Lane to A1064	Low	A modern main (A) road with no frontage development designed to carry high quantities of traffic. A National Cycle Network Route 1 link crosses this road at Procession Lane.	
34	A47 from A1064 to A12	Low	A modern main (A) road with no frontage development designed to carry high quantities of traffic. A National Cycle Network Route 1 link crosses this road at Procession Lane.	
35	A1270 from A1151 to A47	Low	A modern main (A) road with no frontage development designed to carry high quantities of traffic.	

A Trian I No. I A TORGE I	Link	Description	Sensitivity	Rationale
A refut from the Sheet to A1151 Medium of An among Reads to The Street A refut from the Sheet to A1151 Low A man of All process through Smallburgh. Evidence of direct housing forcitage as well as a local plan. A surrow training from the result. A refut from the Sheet to A1151 Low A modern man (A) mod with no forcing development designed to carry high quartities of halfs. A refut from the A140 to 51150 Low A modern man (A) mod with no forcing development designed to carry high quartities of halfs. A refut from 51140 to A1612 Medium A modern man (A) mod with no forcing development designed to carry high quartities of halfs. A refut from 51140 to A1612 Medium A main (A) mod with no forcing development designed to carry high quartities of halfs. Evidence of direct fromtage development forcing the forcing				A main (A) road that passes through Sprowston. Clear evidence of direct frontage development as well as
