NOTICE TO MARINERS

Pipe installation into Horizontal Directional Drilling

Notice is hereby given that VBMS are carrying out pipe installation works as part of the preparations for the installation of the Dudgeon Offshore Wind Farm. Two ±1100m Polyethylene pipes are being installed into two HDD bore holes that have already been completed.

The barge “Stemat 82”, multipurpose vessels “Nova K” and “Fenna B” and a CTV/survey vessel “Volans” are in the specified area during the works (see below map). Diving activities are also being undertaken during the installations.

The spread arrived on location at 10-08-2015. The spread will be working in the area for an expected duration of maximum 20 days.

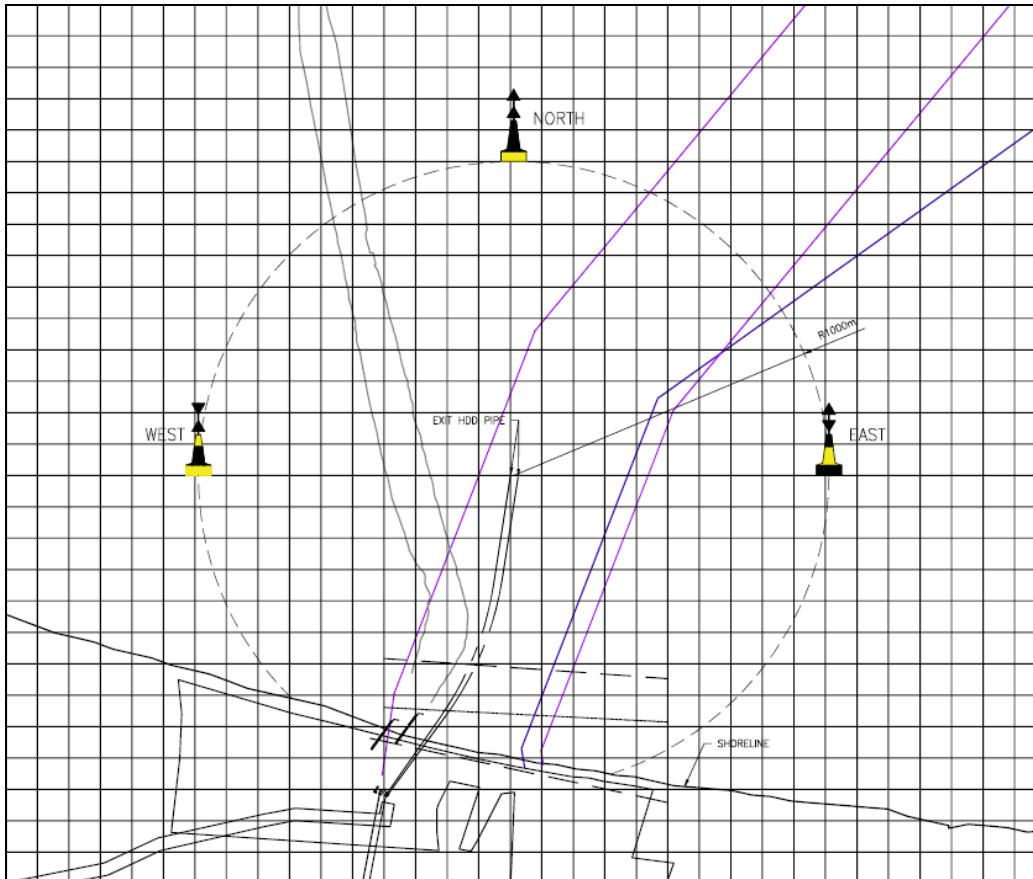

The following figure shows an overview of the project area.

Overview of Project Area

The boundaries of the working area are indicated by cardinal buoys, the buoys are installed on 10-08-2015.
The buoys are positioned on the following coordinates:

North buoy	E 375110,03	N 5870200,44
East buoy	E 376108,63	N 5869207,68
West buoy	E 374146,07	N 5869197,51

All vessels are requested to keep a sharp look out and keep clear of the **safety zone demarcated by the cardinal buoys.**
